

**Established 2001**  
Over 30 years of industry experience

Canadian Wind Power Inc. provides  
wind, solar and water renewable  
energy solutions  
to homeowners, businesses and  
agricultural communities.

Renewable energy generation can  
provide homes, businesses  
and communities with their  
total power requirements, supplemental  
power or back up power

---

**Take back the power!**  
**It's Clean Safe & Reliable!**

---

Save money on your energy bills,  
save even more as rates  
continue to increase.

Manage and control your energy costs by  
creating your own power.  
Watch your system pay you back!

Be energy independent - don't be dependent  
upon a volatile electric industry.

Protect the environment. Renewable energy  
is clean and produces no air pollution

Reduce your contribution to global  
climate change.

Renewable energy solutions are highly  
reliable, very efficient.
